

VAN ROOF RACKS

Ergonomic Ladder Racks make loading and unloading easier.

TOUGH
Military-grade components ensure no corrosion over the lifetime of the rack.

QUIET
Aerodynamic design with minimal wind noise.

SAFE
No metal contact to ladder, leading to longer life of ladders with less chance of fiberglass splinters.

Ranger Design ladder racks make loading and unloading ladders an easy operation. Ranger Design offers drop-down ladder racks, extra tough racks capable of carrying 32' ladders on compact vans, interior ladder carriers and many other options for different applications.

Please take note that all our ladder racks are powder-coated white except for the Cargo+.

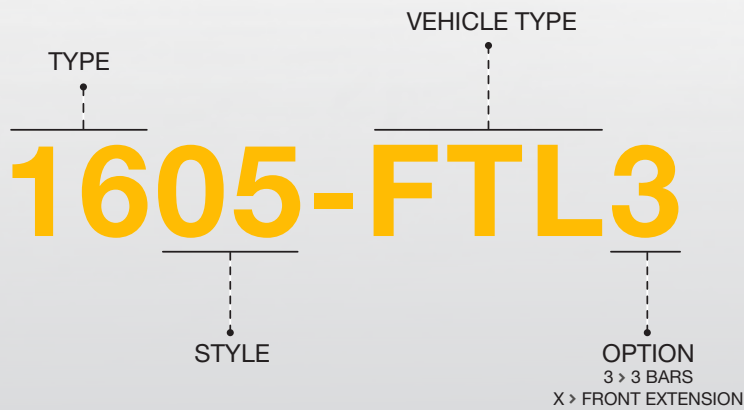

N.B. Models may vary to those shown. Please visit our website for all images.

BEFORE YOU START, ASK YOURSELF

- › What ladders will I be carrying?
- › How often will I be accessing the ladder?

VAN ROOF RACKS – CARGO +

1506 SERIES

CARGO +

DESIGNED FOR TRANSITS, PROMASTERS & SPRINTERS

CARGO + FEATURES AND BENEFITS

The Rear Roller is constructed from tough and hard-wearing stainless steel and attaches easily to the roof rack using our “Anti-Rattle” composite connectors.

The **Cargo+** features T-Track technology which enables quick and easy drill free installs.

The **Cargo+** is the perfect tool for transporting ladders, building materials, pipes and scaffolding.

The **Cargo+** cross bars have been specifically designed to reduce wind noise and drag. The Rear Roller as part of the package of the **Cargo+** is not just a great looking addition to your vehicle, it is also an extra helping hand at the end of a busy day.

MAKE THE BEST USE OF ALL THE SPACE YOU HAVE AVAILABLE ON YOUR VEHICLES!

VAN ROOF RACKS – MAX RACK

1870—1880 SERIES

MAX RACK

DESIGNED FOR HIGH ROOF VANS

Makes loading and unloading ladders an easy operation.

VAN ROOF RACKS

THE EVOLUTION OF OUR DROP DOWN LADDER RACK

TOUGH

- › Military-grade aluminum and stainless steel components.
- › No corrosion over the lifetime of the rack.

Only ladder rack with a 3 year warranty

SAFE

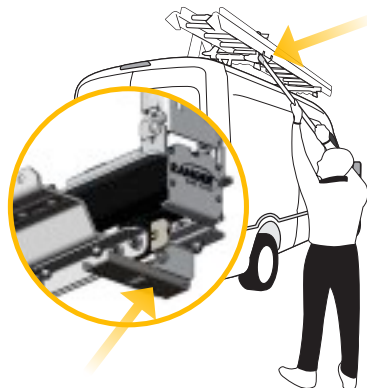

- › Easy access from ground.
- › Lower profile on roof.
- › Each mechanism has a weight capacity of 100 lbs (both single and double).

SIMPLE

- › Single stage operation for fast loading and unloading of ladders on high roof vans.

MAX RACK IS FAST AND EASY TO OPERATE

LOWER LADDER

1

STEP ONE

Release the lock before operating the rack.

2

STEP TWO

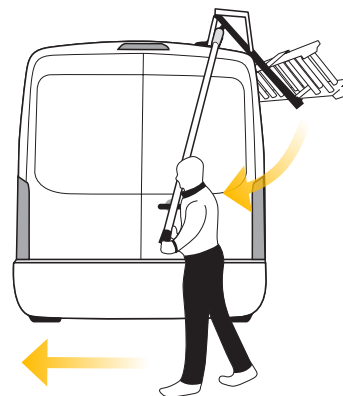

With both hands, insert the handle into the Max Rack and turn to secure.

3

STEP THREE

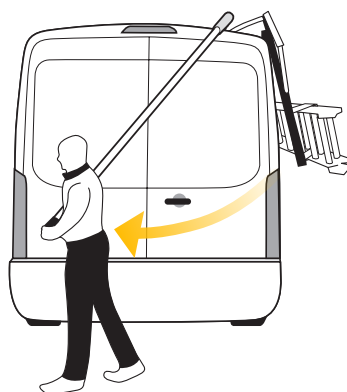

Pull the handle down towards you.

4

STEP FOUR

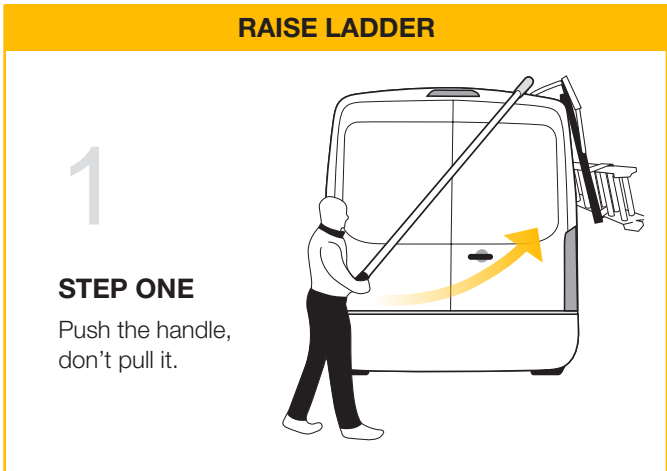

Turn around. Push the handle forward.

5

STEP FIVE

Continue to push the handle until the Max Rack has finished its descent. Do not let go of handle until ladder has fully descended.

1

STEP ONE

Push the handle, don't pull it.

RAISE LADDER

VAN ROOF RACKS – ACCESS STOW

TOUGH

- Built from sturdy aluminum.
- Durable polyester straps keep the ladders secure.

SAFE

- The rack slides down to ground level, eliminating the need to stretch or climb onto the van roof.
- Each mechanism has a weight capacity of 130 lbs (both single and double).

SIMPLE

- The mechanism is designed to make loading and unloading, a quick and easy process.

1930-DH SHOWN HERE.

Individual models may vary to accommodate each vehicle and may be different.
